About us

We are a creation of the Grupo NW holding company, a company specialized in technological developments of high global impact.

Task Enter is a Corporate Social Network that allows increase the productivity of your organization. It offers you tools for measurement, control, communication, time management and much more so that you and your collaborators can be a great work team.

Teamwork

Improve Productivity

Efficient Communication

**All-in-one corporate
communication**

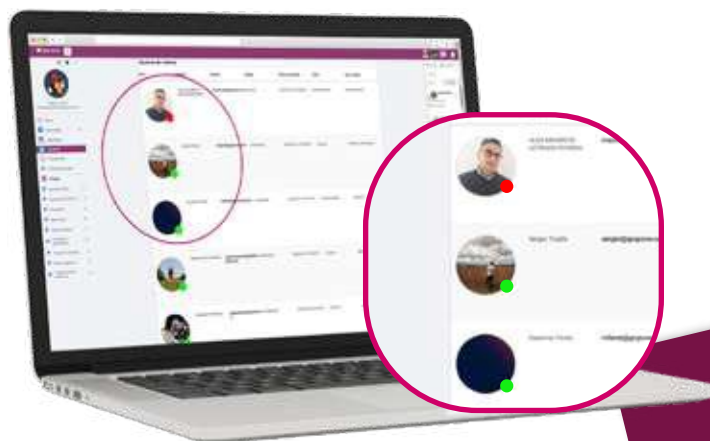

Control of **working hours**

Take control of the working day of your collaborators, in order to measure their compliance, and the overtime that they work.

Status of activities of **your collaborators**

Turn your team of collaborators into a productive teleworking group, through Task Enter, a project management tool that optimizes your processes.

Random Task **Tracking**

This tool detects activity on the PC, generating a screen, audio and video recording where the worker will have a time limit to tell us what they are working on.

Teamwork Better Results!

**Task Enter**

Live chat

Chat with your collaborators easily and simply, either from your PC or iOS or Android cell phone at full speed.

Create tasks by Groups or projects

This type of Task Enter organization allows you to work for specific teams or projects. With an administrator you can control that certain information is seen only by the indicated people.

Quick tasks

Task Enter was created in order to streamline communication between all members of a work team even if they are not geographically close.

Video calls

You are at a convention in another city, but you have to work on a project with your work team. No problem, just connect and make your meeting in real time.

Sending documents

Task Enter makes it easy for you to share documents, images, audio, among others so that communication is more agile and fluid.

Statistics and reports

Analiza la evolución de tus proyAnalyze the evolution of your projects, measure and control with exact statistics generated by Task Enter.

Posting of news and important information on the wall

Share important company events with your collaborators, such as birthdays, meetings, etc., or also external information that they should know.

**Effectively
prioritize
your team's
pending tasks**

Make the most of your **Corporate App**

Optimize the internal communication of your organization. With the Task Enter App you can combine the corporate social network with task management and also generate reports on the performance of your collaborators, with productivity indicators that will allow you to make decisions on recognition, production, threat identification, improve internal communication and encourage teamwork.
